GUIDO MARTIN GALLEGO PAOLUCCI

Game Developer
Buenos Aires, Argentina (GMT-3) | guidoma78@gmail.com | LinkedIn | Portfolio

PROFESSIONAL PROFILE

Software developer with experience in video game development and experimental prototypes. I work in C#, applying object-oriented programming, clean code and design patterns in academic and research projects. Experienced in multidisciplinary teamwork, debugging, producing builds for PC and WebGL, and virtual reality development.

WORK EXPERIENCE

Mar 2019 - Dec 2024

Universidad Abierta Interamericana, Research Assistant

· Developed video games and experimental prototypes in a multidisciplinary team.
· Took part in research and development projects focused on experimental mechanics.
· Programmed in C# applying object-oriented programming, clean code, design patterns and the State pattern.
· Debugged code and fixed bugs.
· Produced, verified and maintained builds for PC and WebGL.
· Developed virtual reality experiences for Oculus Quest 2.
· Notable projects:
Think Outside The Cube - **Winner of the Original Idea award at EVA 2024**
Sensitive Landscapes

May 2023 - Dec 2023

Hidden People Club, Producer

· Coordinated and assigned tasks among team members.
· Tracked project progress and supported the organization of development.
· Maintained, translated and updated the studio's official blog.
· Wrote simple scripts and programs to automate internal tasks and improve team efficiency.
